Notice to Teachers Regarding the Assessment Test

A. Taking Applications:

1. Remind students of the application deadline. Explain Test Sections. For **2009**, Math test in Section 2 is mandatory but still experimental. Those taking Mental Math test will take "Section 1 and Section 2" tests. Those taking Abacus test only will take "Section 2 and Section 3" tests.
2. After the application form has been turned in, please make sure that all fields are filled in, and check that the name, address, contact information, and test level are correct.
3. Please have the parents turn in one check for one student: either for each test or for all tests taken by that student. Please do not accept checks covering all children in a particular family. Make sure that the check is payable to **CAAA**. Mark the student's name and number of tests the child is registered to take on the check.
4. Please collect all applications with checks, and mail them to CAAA before the application deadline.
5. If you are unable to answer a question, please contact the CAAA office for assistance.

B. Reminders For Your Students:

1. Remind the students and parents of the date, time, and location of the test, especially the specified time they are to report to the test. For **2009**, Math test in Section 2 is mandatory even though it is experimental. Those taking Mental Math test will take "Section 1 and Section 2" tests. Those taking Abacus test only will take "Section 2 and Section 3" tests.
2. Remind students to pay attention to the proctor's instructions at test time.
3. Ask students not to turn in the test early. Ask them to review answers after the test is completed.
4. Remind students to bring the following to the test: the admission tickets and 2 or more 2B pencils if they are taking only the mental arithmetic test. Abacus test-takers must also bring an abacus, and possibly a paperweight.
5. Erasers, pens or other writing tools are not permitted. Mechanical pencils are acceptable but it is best to use 2B pencils.

* Changes have been made to the testing rules for Grade Levels 4 and 5 Abacus test. Please refer to the CAAA 2009 Assessment Test Testing Rules.
