On Roller-Coaster Rides We Go ~

**California's
Great America**

2008 International Abacus and Mental Arithmetic Activities
California's Great America Theme Park, Santa Clara 7/19/2008

**Group tickets are ready for you. We are looking forward to seeing
you and your family at the park!**

We have arranged this event for you and your family so everyone can enjoy a FUN-tastic activity together with fellow students, families and teachers in addition to participation in the 2008 World City Cup Competition!

Imagine grasping the handlebars of the harness tightly as the roller-coaster whirls up and around at extreme speeds, excitedly screaming in a cacophonous familial harmony. What a wonderful and fun moment for families to share together.

As soon as your child(ren) finish the abacus and mental arithmetic competition, take them to the park for some rewarding fun in the sun! There are many rides to choose from, from extreme thrill rides with variable g-forces for thrillseekers to easy merry-go-round rides for our smaller or less adventurous participants. Or you may float on the park river and enjoy some leisure time. Great America also offers a variety of stage shows for those who seek more visual entertainment.

To cap off a day that began with competition and followed amusement park fun, you are invited to attend the World City Cup award ceremony and dinner buffet at the Park Pavilion in the evening! This "On Roller-Coast Rides, We Go ~" will be a fantastic page in the scrapbook of your memories. Enjoy!
