

2008 International Cultural Exchange and Language Camp

Explore, Learn, and Play in the Golden State

Silicon Valley, Redwoods, and Gold Rush Towns

Berryessa Union School District, San Jose, California

7/14/ – 7/18/2008

Enjoy your stay in this golden period, an unforgettable week in our Golden State of California. All participating international students will be immersed in a totally American and English-speaking environment to learn, explore and play. Many Asian countries have simulated language camps for English study. But why settle for a copy when you can experience the real thing? Since international students will have this rare opportunity to participate in the World City Cup Competition 2008, we have arranged this one of a kind “Cultural Exchange and Language Camp” for them.

Students will actually be experiencing life in America for a whole week. We will take them to school, a post office, libraries, museums and more. We hope that students will learn through these varied interactive activities, gain a deeper understanding of the English language, and see how it is used in our daily lives.

Top 5 reasons you want to join this summer camp:

1. Students will be using English every day in all kinds of fun and interactive activities. Students will use public school facilities and stay in a Hilton Hotel.
2. There will be many native English speaking teachers and assistants. Students will have many opportunities to interact with our native speakers – both instructors and our local students.
3. Students will learn to tell about their cultures and experiences in English.
4. The price to participate in this unique program is very reasonable. The program is sponsored by CAAA for students who are registered competitors of the “World City Cup 2008” competition only. Availability for international students is limited to 60.
5. Students will have daily lessons at an American public school and will ride school buses for transportation between activities and different sites of interest.
