

Abacus Adventures Reloaded: A New Chapter

Aboard the USS Hornet

Each year, the World City Cup Competition is set in a special place, a destination that will stoke imagination and dreams where we hope to inspire all participants to strive for progress. The competition atmosphere should stir the spirit and provide an opportunity to break away from the everyday, while the cultural exchange activities broker shared understanding and harmony alongside providing some childhood delight.

Students gain understanding of the local culture, thereby growing to become the best ambassadors of our world's diversity. We all come from different places, but the shared experience of the World City Cup builds a relationship with fun and heart.

The Chinese American Abacus Association welcomes you to participate in the 2020 World City Cup Competition held in the San Francisco Bay Area.

2020 World City Cup Competition
