

The
World City Cup 2020
Abacus, Mental Arithmetic, & Mathematics
Competition

Date: Saturday July 25, 2020

Time: 9:00 a.m.—9:00 p.m.

**Location: USS Hornet Museum,
Alameda, California**

In 2000, the CAAA hosted the Millennium International Mental Arithmetic Competition. We lit up a bonfire and had beach activities at the Asilomar campground. In 2002, we organized the inaugural World City Cup Abacus, Mental Arithmetic, & Mathematics Competition in Santa Clara and arranged an abacus exhibition at the Children's Discovery Museum of San Jose. We carefully planned and delivered a week-long language & cultural camp plus roller coaster thrills for World City Cup 2008. In 2015, all participants engaged and got on board an aircraft carrier, the USS Hornet, an unimaginable site for an abacus competition. We are planning to continue the great success and do it again on board the ship, so it comes "Abacus Adventures Reloaded: A New Chapter Aboard the USS Hornet." Among all activities, the teacher's conference is the hidden gem of World City Cup competitions.

We invite you and your students to join us. Please mark your calendar and plan accordingly. We will send out more information when we have them ready.
