

Abacus, Mental Arithmetic, & Math Online Competition

World City Cup 2021

A Virtual Event

Date: August 21, 2021 (Pacific Time)

In 2002, the Chinese American Abacus Association (CAAA) hosted the inaugural World City Cup Competition in the San Francisco Bay Area. In 2008, CAAA took another turn, with the activities held at Great America Theme Park, where all participating students were thrilled by roller coaster rides. The ‘Abacus Adventures aboard the USS Hornet’ in 2015 was an impressive third act by CAAA as host in World City Cup history.

In the past few years, we have also visited different World City Cup host cities and we have achieved fruitful results. During this unprecedented time of the COVID-19 global pandemic, some regions have shut down schools and pivoted to online classes. Nearly all international events and cultural exchanges have stopped.

Even amidst the uncertainty of this pandemic, we remain dedicated to organizing this global event to provide motivation for our students, as incentive and encouragement to realize their potential, and affirm their progress and efforts. It provides a common goal and something for us all to look forward to.

We have developed a virtual plan for this next event – the competition will be held online. We look forward to working with all participating teams in the cloud. Please mark the competition date and plan to attend the **2021 World City Cup Online Competition**. The Chinese American Abacus Association sincerely welcomes you!

Organized by :

Chinese American Abacus Association
