**2021 World City Cup (Abacus, Mental Arithmetic, & Math Competition):**

**A Live + Virtual Event**

2020 is an uncommon year. Due to the unprecedented time of the COVID-19 global pandemic, almost all communication around the world has stopped. Chinese American Abacus Association prepared the “2020 World City Cup – Abacus Adventures Reloaded: A New Chapter aboard the USS Hornet” and canceled. Although the virus still exists in 2021, the uplifting news of the vaccine brings hope. Due to the cautious response to the epidemic and the fear of the short-term recovery from the international travel ban, we will not gather in the World City Cup event like usual. After discussing with the Chinese Academy of the Abacus, we plan to the new city-based “2021 World City Cup (Abacus, Mental Arithmetic, & Math Competition): A Live and Virtual Event. In 2021, the competition has been evolved. We are hoping the abacus, mental arithmetic, and mathematics competition can continue, the cultural exchange activities can resume, and continue to promote mutual friendship.

Every year, the World City Cup – Abacus, Mental Arithmetic, & Math Competition creates a peculiar space: space where kids are looking forward to and achieve their goals; space where kids can improve and work hard; and space integrate with talent and sweat. The atmosphere of the competition creates a sense of strive for breaking away from the comfort zone to show what you have learned. In 2021, we integrate the technology to bridge the gap caused by the epidemic and bring us closer through the internet.

The Chinese American Abacus Association sincerely welcomes you to participate in the new 2021 World City Cup (Abacus, Mental Arithmetic, & Math Competition): A Live + Virtual Event.
