

## CAAA 2010 International Events

CAAA would like to invite you and your child(ren) to join us in attending two abacus and mental arithmetic competitions in Taiwan this year, which will enhance students' interest in learning more about the abacus. This event will provide students with more exposure to the world, and also be a unique opportunity to enjoy an international cultural exchange trip with family. Those who participate in these enriching group activities will have an amazingly interesting summer experience to remember. Plus, there's something for everyone. Teachers on the trip will have the opportunity to attend various seminars, in which to discuss the newest innovations in teaching methodology with other educators around the world.
