

Abacus Adventures: Strive for Progress

Date: July 29, 2023 (Pacific Time)

Time: 7:00 - 10:00 pm

Place: Chennai, India (In person) or Internet Online

"Strive for progress, not perfection."

We hope that **our students are able to appreciate and be proud of their work.** They do not need to be focused on what something could have been or should be; instead, we'd like them to focus on the next steps – moving forward in a positive way to seek improvement, hopefully with some fun sprinkled in along the way.

The unprecedented years of the pandemic have passed, nearly all international events and cultural exchanges have resumed. CAAA remains dedicated to co-hosting this global event with this year's host organization (Ideal Play Abacus India PVT LTD. – "IPA") to motivate our students as both incentive and encouragement to realize their potential and affirm their progress and efforts. It provides a common goal and is something to which we can all look forward.

CAAA and IPA have developed a hybrid plan for this event – the competition will be held both in-person and online. We look forward to working with all participating teams in the cloud. Please check the qualification prerequisites to attend this great event, save the date, and plan to attend the 2023 World City Cup **LIVE+VIRTUAL** competition.
