This year we extend a very warm welcome to all of you to come and experience the rich cultural and magical experience of India.

The venue we have selected is Mahabalipuram which is 40 kms away from our city Chennai. It has ancient caves belonging to the 7<sup>th</sup> century. The hotel is a 5 star hotel with all amenities attached and the conference centre is in the same venue as the hotel. The venue is also very safe and we will help you with all logistics. Covid cases are also almost nil in India making it even more safe.

Every year, the World City Cup – Abacus, Mental Arithmetic, & Math Competition creates a peculiar space: space where kids are looking forward to and achieve their goals; space where kids can improve and work hard; and space integrate with talent and sweat. The atmosphere of the competition creates a sense of strive for breaking away from the comfort zone to show what you have learned. we integrate the technology to bridge the gap caused by the epidemic and bring us closer through the internet.

Please consider this as a personal invite and do come to India. For those who are unable to come we also have a virtual competition.
